

ERM1 Exercise sheets: How-to

Deadline

Deadline for submission is Mondays at 23:59. It will be the same Monday in which we talk about the exercise sheet's topic. If you do not hand it in in time, you will receive zero points. Submission is through moodle.

Resources

You may complete the exercise sheets with the support of different resources, like books, internet sources, discussions with other students, etc., as long as you indicate the resources you used (see also the next point 'plagiarism'). As you will not have access to any of the above-mentioned resources in the final exam, we recommend trying to solve the tasks as independently as possible.

Plagiarism

You have to formulate the answers in your own words, copy-pasting is not acceptable. **If we detect plagiarism, you will receive 0 points.** It is not acceptable that several students hand in identical exercise sheets, and in these cases, these students would receive zero points. Using direct quotes can sometimes make sense, e.g. when giving a definition, but you will have to cite the quotes according to the APA guidelines. At the end of the exercise sheets, you have to add a list of references that you used.

Excel / SPSS

If you need to perform calculations or manipulate data in Excel or SPSS, you have to submit these files too (e.g., the SPSS output), so that your approach and the results can be checked. Instead of files, you can also add screenshots.

Points needed

In total, you need to reach at least 50% of the points overall at the end of the semester, in order to be admitted to the final exam.
