

Educational Technology for the Classroom – Assignment description

Quizzes Assessments

During the course, you will be prompted to answer short closed-response quizzes to help you check your understanding and focus your attention on key points in the lecture. The quizzes are mandatory and have a time limit, meaning you must answer each question in their respective amount of time and allow only one attempt. ***The quizzes' results will not affect your final grade.***

Peer discussions

The discussions will be based on a case study, and you will be asked to examine the case and collaborate on a response and recommendations based on what they learned in the video lectures. ***Please use only the assigned Chat environment for the discussion.***

Submissions	Due date
Module 2	22.01.2023
Module 3	29.01.2023
Module 4	05.02.2023
Modul 5 – Final Assignment	17.02.2023

The submissions are required and count towards your final grade. You will find more details about submissions in each module once available.

The submissions are graded based on the following aspects:

- Is between 3/4 and 1 page long (single-spaced).
- Answers all aspects of the task completely.
- Is written in a clear and precise manner.
- Justifies all conclusions with evidence.
- References the materials explicitly and uses additional external knowledge when needed.

Modul 5 - Final Assignment

The final assignment consists of an essay (approximately 1000 -1500 words). You will find more details on the final assignment and its grading criteria in module 5 (when available).
